

Did you ever own this 1976 TR6

Commision # CF54309U

Hello fellow LBC enthusiasts. I'm asking for help in pulling together the ownership lineage and history on my 1976 TR6. The Commission Number is CF54309U and it's colour was Pimento Red (72) with a black interior (Trim 11). My BMIHT Certificate tells me the car's build date was March 10, 1976 and that it was shipped to British Leyland Motors Canada Limited, Halifax on the vessel "Tosca" in May 1976. I believe it was later shipped to BC for sale as a new car. I bought the car in BC in 2008 and after extensive work by, and help from, Octagon Motors I drove it across western Canada to its new home in Ontario. I've been able to trace ownership back to 1991 with the help of previous owner Doug Chinnery who owned the car for 15 years. Doug lived in Vancouver as did the chap he bought the car from. I've love to hear from a previous owner or someone who knew the car and of course, to know where the car was sold new. Thank you.
