

March 2021 –chordwheel@shaw.ca- Saltspring Island BC

1955 Austin A50 - \$500

1958 Austin A55 - \$1,800

Rebuilt Engine Transmission & Clutch - \$600

I have a 1955 Austin A-50 that I took the 1500 engine out. I restored the engine compartment but let that project languish so it is still engine-less and a little the worse for sitting out with a tarp over it.. The engine had very little mileage on it when I pulled it out and has always been stored inside. (see photo)

I have a 1958 Austin A-55 in very good condition, stored inside but hasn't run in 15 years. when I last drove it, I drove it up the Coquihalla to Kamloops and back without problems. (see photo)

I also have a completely rebuilt 1500, clutch in and good transmission attached that is inside on an engine table with wheels. (see photo)

The cars are at my place on Salt Spring, 2 miles from Ganges – all need to be taken away on car trailer.

Open to offers and open to having them viewed.
