

November 2018 – Victoria BC

### **1960 Ford Consul Project \$2,000 OBO**

This car has 29,467 original miles! My late father in law purchased the car in 1989 from the original owner, who, in 29 years of ownership only drove it 15,000 miles.

The exterior of the car has been mostly stripped of paint and the engine is currently out of the car, but it has been to the machine shop, is painted and ready to go together. Many nos engine parts are awaiting assembly. The interior is in beautiful condition and shows virtually no wear. There are tons of spares to go with this car, many extra body panel, lights, chrome etc. The photo of the complete car is this exact car before the refurbishment started. We are losing storage for this little car, try an offer!
