

November 2021 – Langley BC

**1960 Jaguar 3.8 Mk2 Automatic  
\$1950**

1960 Jaguar 3.8 Mk2. This is a restoration project or parts car. Original colour is Black with a red interior. It has excellent front wings, doors, roof panel, bootlid and good rear wings. As with all Mk2's that suffer from 'severe deferred maintenance', it needs replacement sections in the floors, sills, jacking points, spring hangers, a rear seat corner panel, spare wheel well and rear valence. The structural integrity is still there and all four doors open and close nicely with excellent door gaps. The interior is there but the dash and soft furnishings are toast. The engine was used in another project. A Mk2 correct Borg Warner automatic gearbox is included in the sale. Front and rear suspension is intact. I bought it on a Bill of Sale from Alberta some years ago and have not yet applied to ICBC for a 'Registration for a Vehicle in Restoration'.
