1975 Triumph Spitfire \$7,000.00

I bought this car as an unfinished project about 8 years ago. I painted it and finished it but find I rarely use it. The car is rebuilt : Motor, Transmission, Electric Overdrive and Brakes. The seats have been recovered and it has a new Keys ragtop. It has dual carbs, K&N air filters, electric fuel pump and the alternator up graded to a delco. I have a new rear spring (not installed) and a hardtop and spare parts included. The painting was done by me so not perfect but still looks good. Previous owner receipts total over \$7600. and I put another \$1300. into it. I would like to get \$7000.00 out of it and have someone use it. I would possibly consider a trade ???? The car is always stored inside, it has the typical oil drips but is a good solid car. Contact Dave Haine at: mdhaine@shaw.ca
