- Brake Accumulator
- Transmission Mounts
- Fan Clutch
- Hood Struts
- Aux Half Shaft Gasget
- Transmission Kickdown Solenoid

Covered 199000 km

A very well sorted and looked after XJS that has been garaged since 2001, and in all probability from before that. Original Jaguar radio, tool bags, spare wheel cover, tonneau cover. Leather seats, no tears, electric roof that works correctly, with no tears. Electric windows. This car should bring pleasure for years to come. For sale as I need garage space for another car which is being restored and will be completed within the next three weeks.
